## **The ideal home for your chinchilla**

- Extra high cage, gives your pet plenty of space
- High quality wire finish ensures a long - life cage
- 2 full poplar wooden platforms make a comfortable resting place
- Metal rims protect the platforms being gnawed
- Safety door lock prevents accidental opening
- Metal floor grid prevents gnawing of plastic base
- Includes a plastic chinchilla bath, removable feeding bowl and 1000 ml drinking bottle

## **Instructions for use**

Install one of the wooden platforms at the height of the door. This will allow you to handle your pet more comfortably.

Position the wooden platforms so the metal protection rims face the inside of the cage

We also recommend placing a wooden branch in your cage. Your chinchilla will have fun jumping on it and also gnawing on it.

Once a day, place the chinchilla bath in the cage for up to 10 minutes. To prevent the bath from being chewed or soiled, removed it once the chinchilla has bathed.
